

# Avoiding Approach and Landing Incidents/Accidents

Approach and landing incidents refer to those situations where a pilot may have been able to land an aircraft safely, but did not. These types of accidents are one of two leading causes of aviation fatalities. We will analyze actual accidents and offer valuable safety tips. Don't miss this important safety seminar!

**Directions:** Proceed to the Cyril E. King airport in St. Thomas, USVI. The meeting will be held in the Ports Authority Security Conference Room located on the second floor of the main passenger terminal building.

## A message from the National FAASTeam Manager

WINGS – The better way to meet your Flight Review requirement!
